授業内容

This course provides an introduction to the basic concepts of generative syntax and morphology.

In this course we will learn how words group together to make phrases and sentences. Topics include the classification of words, the order of words in phrases and sentences, the structure of phrases and sentences, and the different sentence constructions that languages use.

An important goal of the course is to introduce students to the fundamentals of scientific, particularly linguistic, argumentation.

授業計画

- Structure of words
- Parts of speech
- Phrase structure and transformations

(See the weekly plan on the back)

授業方法

Lecture

評価方法

There will be 3 homework assignments. These assignments must be handed in on time.

At the end of the class there will be a test.

Attendance and Homework 80%

Final Test 20%

履修上の注意

Assignments must be returned on time. Class attendance is also an important part of the evaluation.
